

Compare and Contrast

State and Territory Wildlife Protection Legislation

Each state and territory has a range of laws protecting their flora and fauna, and the movement of each across borders. Explore the range of acts designed to protect flora and fauna in your state or territory. Once completed, use the Venn diagram below to compare the purpose of the national EPBC Act and state or territory acts, indicating where there are similarities and where there are differences. Once completed, discuss as a class your findings.
